AI WhatsApp Automation &amp; Bulk Campaigns · 2026 Edition

## THE PROBLEM

# Your best leads message you on WhatsApp — and **wait**.

### Replies happen whenever someone's free

Not in real time — and leads go cold within minutes of going quiet.

### No knowledge base to draw from

New hires hunt through PDFs and group chats just to answer a product question.

### After-hours is a black hole

Evenings, weekends, holidays — nobody's watching the phone, and enquiries pile up.

### The same questions, a hundred times

Pricing, brochure, timings, availability — typed out manually, again and again.

### Bulk outreach is risky or manual

Copy-pasting one contact at a time, or an unofficial tool one ban away from silence.

### No record of what was said

Who was contacted, what was promised, what happened next — scattered across phones.

## INTRODUCING PREPWHATBOT

# One AI bot. Every enquiry, every hour, every campaign.

| Return-Policy.pdf    | PDF upload        | Processing... | —         |

- ✓ **Point it at your website**  
Auto-crawls every page and stays in sync as you update content.
- ✓ **Upload brochures & PDFs**  
Product sheets, price lists, policy docs — straight into the bot's memory.
- ✓ **FAQs in plain language**  
Write once, the bot phrases every answer in your tone and words.
- ✓ **Always editable**  
Correct, add or retrain instantly — no developer required.

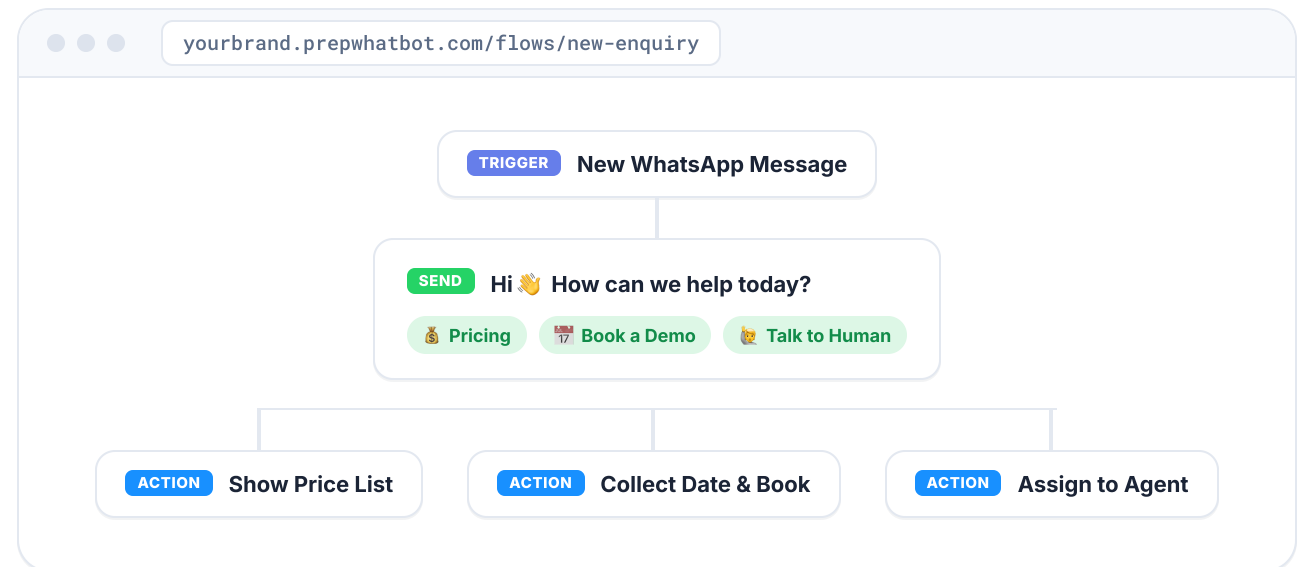

# Answers in seconds — pulled straight from **your own content**.

- ✓ **Instant, every time**  
No missed enquiry, day or night, weekday or holiday.
- ✓ **Grounded in your knowledge base**  
No made-up answers — only what you've actually fed it.
- ✓ **On-brand tone**  
Friendly, professional, and consistently in your voice.
- ✓ **Smart escalation**  
Hands off to a human the moment a conversation needs one.

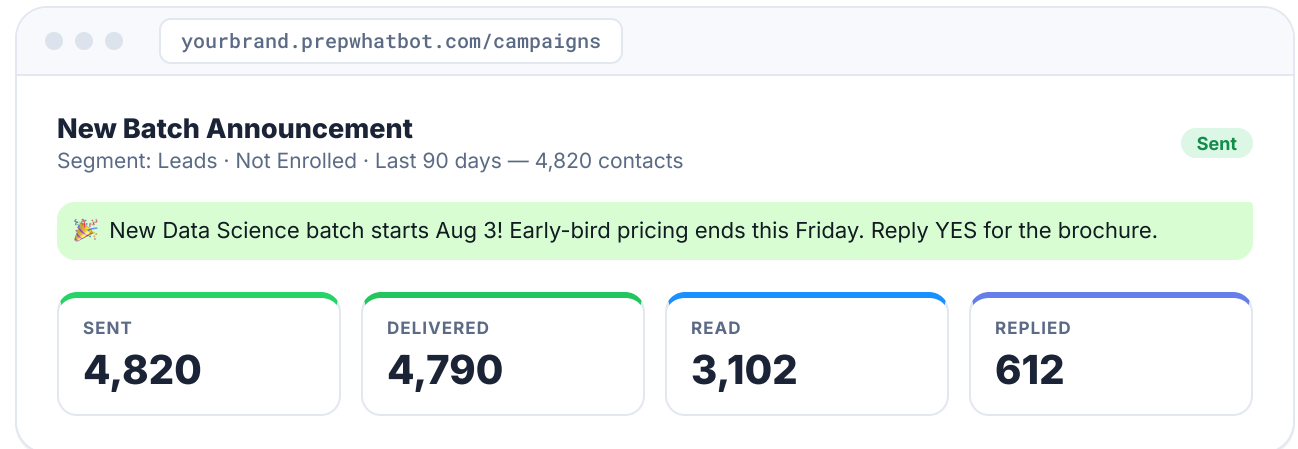

# Design exact conversations — **no code, no prompts.**

- ✓ **Drag-and-drop steps**  
Welcome menus, forms, button & list replies, conditional branches — built visually.
- ✓ **Pairs with AI auto-reply**  
Use a fixed flow for bookings or orders, and let the AI handle open-ended questions.
- ✓ **Native WhatsApp UI**  
Real buttons, lists and quick replies — not just plain text prompts.
- ✓ **Preview before you publish**  
Step through the exact conversation a customer will see, before it goes live.

# Reach thousands, **compliantly**, in one send.

- ✓ **Segment your database**  
By tag, source, course, city or funnel stage — the right message, right group.
- ✓ **Approved templates**  
Pre-approved WhatsApp templates — no ban risk, fully within policy.
- ✓ **Schedule & automate**  
Drip sequences, reminders and follow-ups run on autopilot.
- ✓ **Real delivery numbers**  
Sent, delivered, read and replied — tracked per campaign, live.

# The bot handles the routine. **Your team handles the rest.**

| CONTACT      | LAST MESSAGE                   | STATUS      | ASSIGNED |
|--------------|--------------------------------|-------------|----------|
| Rahul Shah   | Book a call                    | Bot handled | —        |
| Priya Mehta  | Can I get a discount on fees?  | Needs human | Ananya   |
| Karan Patel  | Not interested right now       | Bot handled | —        |
| Sneha Rao    | Site visit confirmed for Sat   | Resolved    | Aarav    |
| Vikram Joshi | Escalated — angry about refund | Needs human | Ananya   |

- ✓ **Full context on handoff**  
The agent sees the entire conversation — no re-asking the customer.
- ✓ **Hot-lead alerts**  
High-intent conversations are flagged and routed instantly.
- ✓ **One inbox, whole team**  
Every WhatsApp conversation in a single, shared view.
- ✓ **Never double-reply**  
A chat picked up by a human is locked from the bot automatically.

# Multiple agents. One number. Zero confusion.

-  **Role-based access**  
Owners see everything, agents see only their assigned chats.
-  **Manual or auto-assignment**  
Round-robin, by segment, or hand-picked per conversation.
-  **Internal notes**  
Leave context for teammates that the customer never sees.
-  **Full audit trail**  
Every reply, bot or human, timestamped and attributed.

# Every WhatsApp lead, already in **your CRM.**

Native connections to the tools your team already runs on — no manual exports, no re-typing leads.

**HubSpot**  
● Connected · two-way sync

New WhatsApp conversations create or update contacts and deals automatically — replies log as timeline activity.

**Salesforce / Zoho**  
● Connected · lead sync

Leads, tags and conversation status sync straight into your existing pipeline — no double entry for sales teams.

**Prepseed CRM & PrepDesk**  
● Connected · native

Already on the Prepseed Real Estate CRM or PrepDesk? WhatsApp leads and conversations sync in natively, zero setup.

**Set up in a day**  
Connect accounts once — no developer needed.

**Zero double entry**  
Leads, tags and status stay in sync automatically.

**Always in sync**  
Data refreshes automatically, both directions.

**Your field mapping**  
Map WhatsApp fields to your CRM's exact schema.

- ✓ **Campaign performance**  
Delivery, read and reply rate, tracked per broadcast.
- ✓ **Response time**  
First-reply and resolution time, measured automatically.
- ✓ **Lead funnel**  
Enquiry → qualified → booked — all sourced straight from WhatsApp.

## WHITELABEL & CUSTOMIZATION

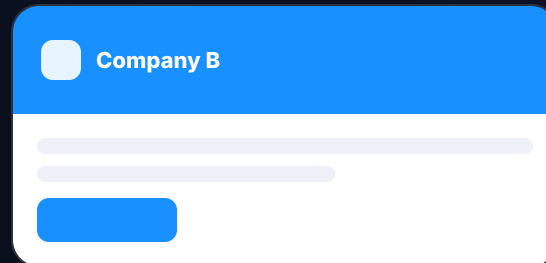

# This isn't our bot on your number. It's **your bot**, built by us.

Every PrepWhatBot deployment ships under the client's own brand — dashboard, WhatsApp business profile, reports and PDFs. Prepseed is the engine underneath, never the name on screen.

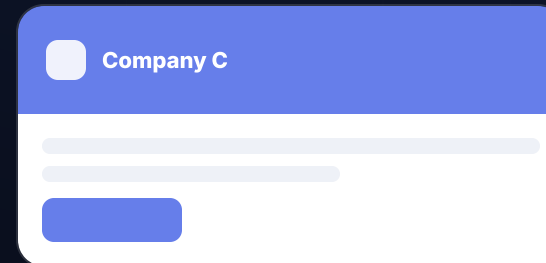

### Your logo & brand color

Applied across the dashboard, chat widget and every report.

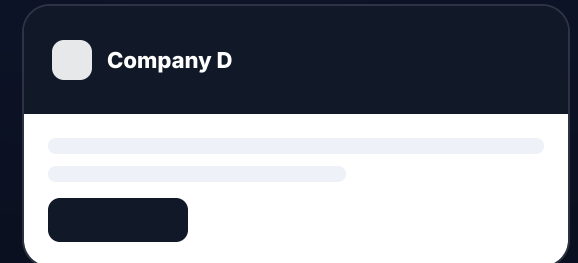

### Your domain

bot.yourbrand.prepwhatbot.com — customers never see "Prepseed."

### Your WhatsApp profile

Business name, logo and greeting message are entirely yours.

### Your pricing

You decide what to charge your own clients or teams.

LET'S BUILD YOUR BOT

# Your WhatsApp. Your brand. Live in weeks.

Book a walkthrough and we'll map PrepWhatBot's auto-reply, knowledge base and bulk campaigns to your business, your content and your brand.
